Product
Catalogue

windsorbrass.co.nz

Insist on style and quality. Insist on **Windsor**

Windsor Brass Ltd is pleased to present in this catalogue an unparalleled selection of genuine, superior, quality door furniture and accessories specially chosen to complement the high standard of architecture found in today's homes and buildings.

These exclusive collections are processed in our spacious factory where they receive the Windsor touch – from specialty finishes to customisation. Our vast warehousing system allows us to stock the most comprehensive portfolio of door, cabinet, window and letterbox hardware available.

Established in 1984, Windsor Brass Ltd is a family-based New Zealand company with the experience and expertise essential for providing the prompt, efficient, courteous service and delivery that attracts and retains satisfied customers. Today the Windsor name has developed a strong sense of corporate identity and become renowned for its commitment to continuous improvement.

We invite you to peruse the range, make your choice and compare the difference.

Bannister Brackets

Bannister Brackets & Stanchions

Quality, style and functionality are seen in the Windsor range of bannister brackets.

- > Made from solid brass
- > Strong, concealed fixing
- > Simple lag screw that can be used with narrow gauged timber framing
- > Quick and easy to install - simply drill a 5mm hole and wind them in
- > Can be supplied with face fixing option

Keyless Entry > Electronic Levers & Double Turn Lock

Daily Convenience

- > Back-up mechanical keyway
- > Tactile activation and locking
- > Large buttons and illuminated keypad for ease of use in low light areas or at night
- > Up to 10 personalised user codes can be programmed
- > Low battery indicator light warns you when new batteries are required

Uncompromised Security

- > Keypad is temporarily disabled after 4 consecutive incorrect entries
- > Optional auto-lock timer with 10 second delay
- > Temporary codes can be programmed - ideal for tradesmen

Easy Installation

- > Replace your existing Euro 85 mortice lock
- > Minimal tools required for installation
- > Suits standard door thicknesses from 38mm-55mm
- > Graphic step-by-step installation instruction & door cropping template supplied

Product Specifications

User Codes: 10 sets (2 to 8 digits each)

Programming Code: 1 set (2 to 8 digits)

Keys Included: 3

Size (HxWxD): *Exterior lock body:* 255mm x 69mm x 14mm
Interior lock body: 243mm x 71mm x 30mm

Finish: Brushed Nickel or custom Powdercoat

Door Bore Hole: 25mm (spindle) & 38mm (deadbolt)

Door Thickness: 38mm to 55mm

Backset: 60mm

Power: DC 6V (four AA 1.5V alkaline batteries)

Base Material: Solid Brass

Touch Screen Back-light Colour: Green

Operating Frequency: 433.92 MHz \pm 150KHz

Additional Info

- > 5 pin C4 profile Keyway – Common C4 keying allows you to easily rekey this lock to match the other doors in your house
- > Optional rubber housing provided for weather protection

With remote option only:

- > 2 radio frequency remotes (433MHz) with a range of 15-20m included
- > Up to 10 remotes can be programmed for the same lock

Rebate Kit

1356 Rebate Kit

- > LH or RH available
- > To suit 1340, 1341, 1342, 1343 & 1344

Care & Maintenance

Brass

The high polish of Windsor Brass products is treated with a clear protective coating to provide durability. Brass, like sterling silver, will gradually tarnish and take on an antique appearance. Atmospheric conditions, caustic agents such as paints, or scratches from sharp objects may cause the protective coating to crack or peel causing spotting and discolourations. However, the beauty of the metal can be maintained by taking a few simple steps.

Initial care for brass requires only a quick rub with Windsor Wax Polish and light buffing with a soft cloth. You may prefer to do this weekly, especially in exterior, often used or damp environments.

"Blue Magic" Metal Polish is a quick, effective way of restoring mildly tarnished brassware. If heavy discolouration occurs the finish can be restored by stripping the remaining lacquer and polishing regularly with "Blue Magic". Alternatively let it age naturally to an antique finish. The beauty of solid brass is that it can always be restored to its original lustre.

Stainless Steel

To aid the longevity and appearance of quality Windsor stainless steel product we recommend that it is kept clean and a metal polish such as "Blue Magic" be applied periodically. Atmospheric conditions, salt deposits, acids, caustic agents, cement or dust on construction sites all have the potential to cause discolouration to the surface.

If this occurs do not be concerned as usually this is not the stainless steel itself but particles clinging to its surface. The product can be revived by following the above maintenance procedure and repeating regularly. This small amount of routine care can only preserve the elegance of your Windsor stainless steel hardware.

Leather

Windsor's range of fine Italian leather products are protected by a urethane covering. Even so, they will need gentle care and maintenance to keep them in top condition. Clean leather products regularly with a soft, damp cloth as dirt and grime can act as abrasives on leather. Use an appropriate leather furniture conditioner periodically as required. This will depend on frequency of use of the hardware and proximity to sunlight. Wipe off food and body oils as soon as possible as they will oxidise and change the colour of the leather. Don't use water, cleaning solvents, soaps or ammonia based products to clean the leather; Water based stains will leave a permanent mark. This small amount of routine care can only preserve the elegance of your Windsor leather hardware.

Roman Brass / Natural Bronze / Oil Rubbed Bronze

The finish on Windsor's architectural brass products is an oxidation treatment which continues to age when it comes in contact with the atmosphere. Over time, the natural patina of the bronze finish will give way to an aged brass finish in heavy use areas. For care and maintenance, a gentle wipe with a damp cloth should keep your architectural brass hardware in top condition.

Black Iron

Windsor's Black Iron range has a powdercoated finish. Iron naturally oxidises, especially when exposed to the weather, and this can occur if the powdercoating is scratched or chipped. The iron itself will not deteriorate with oxidation, other than the discolouration of the surface, as the oxidation forms a skin on the surface unlike steel which continues to rust. Small chips can be touched up with a black wax crayon as the wax will provide weather protection. Larger areas can be restored with a black etch paint such as PA10.

Handing for Single/Dummy Handles

Windsor Special Finishes

Hand Finished in New Zealand

Ordering Leadtimes

1-2 Days

1-2 days delivery time is normal for standard stocked products. In the unlikely event of delays or out of stocks, extended leadtimes will occur.

All UB products supplied are non-returnable.

Products, specifications, finishes and leadtimes are subject to change without notice.

14 Days

14 days delivery time applies to non-stocked powdercoated or bronze products and made to order pull/bar handles.

Products and finishes in this category are non-returnable items.

Custom

The custom category lists any special electroplated finishes that are not part of our standard range offering but are refinished to order. This includes finishes such as VP, VC, BAN, CP, BN, SC and Heavy Brass Plate for refinishing.

The leadtimes for custom items can vary substantially - standard expected delivery is 4-6 weeks, however this can fluctuate subject to sufficient item quantities being processed to cover refinishing surcharges etc.

Products and finishes in this category are non-returnable items.
